On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA *Advantage!*, a menu-driven database system. The internet address of GSA *Advantage!* is: **GSAAdvantage.gov**.

For more information on Federal Supply Schedules, click on the FSS Schedules button at <http://www.gsa.gov/schedules-ordering>

- **Contract Number:** GS-23F-0320N
- **Industrial Group:** MAS
- **Contract Period:** 8/26/2003 thru 8/25/2023
- **Business Size:** Other than small

Price list current as of Modification #PS-A812, effective February 11, 2020.

CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Numbers (SINs)

OLM - Order Level Management (OLM):

OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:

OLMs are: Purchased under the authority of the FSS Program, unknown until an order is placed, defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs); only authorized for use in direct support of another awarded SIN; only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN); Subject to a Not To Exceed (NTE) ceiling price

OLMs are not: "Open Market Items."; items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing: Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF); the value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

541330ENG – Engineering Services:

Services include: applying physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems. Services may involve any of the following activities: provision of advice, concept development, requirements analysis, preparation of feasibility studies, preparation of preliminary and final plans and designs, provision of technical services during the construction or installation phase, inspection and evaluation of engineering projects, and related services.

NOTE: Services under this SIN cannot include architect-engineer services as defined in the Brooks Act and FAR Part 2, or construction services as defined in FAR Parts 2 and 36.

541380 – Testing Laboratories:

Includes testing laboratory services and veterinary, natural, and life sciences; testing services and laboratories; and other professional, scientific, and technical consulting services.

Testing and services include, but are not limited to: physical, chemical, analytical, or other testing services; quality assurance; fire safety inspections; training; safety audits; relying upon experimental, empirical, quantifiable data, relying on the scientific method, and professional services, tasks, and labor categories in the fields of biology, chemistry, physics, earth sciences, atmospheric science, oceanography, materials sciences, mathematics, geology, astronomy, veterinary medicine, statistics, systems science, etc., (excludes social and behavioral sciences).

Examples of labor categories include, but are not limited to, Scientific Researchers, Biologists, Physicists, Mathematicians, Statisticians, Research Engineers, Meteorologists, Lab Technicians, Veterinarians and Veterinary Services, Chemists, Biochemical Engineers, Research Nurses.

541420 – Engineering System Design and Integration Services:

Services include creating and developing designs and specifications that optimize the use, value, and appearance of their products. These services can include determination of the materials, construction, mechanisms, shape, color, and surface finishes of the product, taking into consideration human characteristics and needs, safety, market appeal, and efficiency in production, distribution, use, and maintenance.

Associated tasks include, but are not limited to computer-aided design, e.g. CADD, risk reduction strategies and recommendations to mitigate identified risk conditions, fire modeling, performance-based design reviews, high level detailed specification and scope preparation, configuration, management and document control, fabrication, assembly and simulation, modeling, training, consulting, analysis of single or multi spacecraft missions and mission design analysis.

NOTE: Services under this NAICs cannot include architect-engineer services as defined in the Brooks Act and FAR Part 2 or construction services as defined in the Federal Acquisition Regulation Part 36 and Part 2.

54151S – Information Technology Professional Services:

IT Professional Services and/or labor categories for database planning and design; systems analysis, integration, and design; programming, conversion and implementation support; network services, data/records management, and testing.

NOTE: Subject to Cooperative Purchasing

541611 - Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services:

Provide operating advice and assistance on administrative and management issues. Examples include: strategic and organizational planning, business process improvement, acquisition and grants management support, facilitation, surveys, assessment and improvement of financial management systems, financial reporting and analysis, due diligence in validating an agency's portfolio of assets and related support services, strategic financial planning, financial policy formulation and development, special cost studies, actuarial services, economic and regulatory analysis, benchmarking and program metrics, and business program and project management.

Inherently Governmental services as identified in FAR 7.503 or by the ordering agency are prohibited. It is the responsibility of the Contracting Officer placing the order to make this determination. Ordering activities must require prospective contractors to identify potential conflicts of interest and address those, prior to task order award.

Personal services as defined in FAR 37.104 are prohibited.

541614SVC – Supply and Value Chain Management:

Includes supply and value chain management, which involves all phases of the planning, acquisition, and management of logistics systems.

541715 - Engineering Research and Development and Strategic Planning:

Service include conducting research and experimental development (except nanotechnology and biotechnology research and experimental development) in the physical, engineering and life sciences such as; such as agriculture, electronics, environmental, biology, botany, computers, chemistry, food, fisheries, forests, geology, health, mathematics, medicine, oceanography, pharmacy, physics, veterinary and other allied subjects.

GSA Contract No.: GS-23F-0320N

Typical tasks include, but are not limited to, analysis of mission, program goals and objectives, program evaluations, analysis of program effectiveness, requirements analysis, organizational performance assessment, special studies and analysis, training, and consulting; requirements analysis, cost/cost performance trade-off analysis, feasibility analysis, developing and completing fire safety evaluation worksheets as they relate to professional engineering services; operation and maintenance, evaluation of inspection, testing, and maintenance program for fire protection and life safety systems, program/project management, technology transfer/insertion, training and consulting.

NOTE: Services under this NAICs cannot include architect-engineer services as defined in the Brooks Act and FAR Part 2 or construction services as defined in the Federal Acquisition Regulation Part 36 and Part 2.

***SCA Eligible Labor Category

1c. QuantiTech Labor Category Requirements and Descriptions

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Administrative Support I	High School	0	Experience in basic administrative support related to a broad range of fields including but not limited to human resources, accounting, procurement, contract management, travel, office management, and security. Works under immediate supervision.
Administrative Support II	High School	2	Experience in moderate administrative support related to a broad range of fields including but not limited to human resources, accounting, procurement, contract management, travel, office management, and security. Works under immediate supervision.
Administrative Support III	High School	4	Experience in complex administrative support related to a broad range of fields including but not limited to human resources, accounting, procurement, contract management, travel, office management, and security. Works under immediate supervision.
Administrative Support, Sr.	Bachelors	6	Responsible for planning, and coordinating a program management or program support office. Develops, plans, reviews, directs, and controls all activities within the department. Develops and maintains a close communication with higher level Government personnel, contractor, and company personnel. Performs other duties as required. May include supervisory roles as required.
Analyst I	Bachelors	0	Provides basic analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes.
Analyst II	Bachelors	3	Provides simple analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes.
Analyst III	Bachelors	6	Provides moderate analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes.
Analyst IV	Bachelors	11	Provides complex analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Analyst V	Bachelors	16	Provides complex analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes. May include supervisory and team lead roles as required.
Analyst VI	Bachelors/	21	Provides analytical solutions for technical/business problems through the application of the principles of analytics and mathematics. Solutions may include, but not limited to, requirements, models, methods, analyses, and studies related to technical/business systems and or processes. May include supervisory and team lead roles as required.
Engineer/Scientist I	Bachelors	0	Provides basic analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses.
Engineer/Scientist II	Bachelor	3	Provides simple analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses.
Engineer/Scientist III	Bachelors	6	Provides moderate analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses.
Engineer/Scientist IV	Bachelors	10	Provides complex analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses.
Engineer/Scientist V	Bachelors	15	Provides complex analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses. May include supervisory roles as required.
Engineer/Scientist VI	Bachelors	21	Provides analytical/engineering solutions through the application of the principles of engineering, science and mathematics. Solutions may include, but not limited to, system/component models, methods, requirements, designs, or analyses. May include supervisory and team lead roles as required.
Engineer Technician I	Bachelors	0	Provides basic technical support, conducts data analysis and applies knowledge of engineering technology under the direction of engineering staff.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Engineer Technician II	Bachelors	2	Provides simple technical support, conducts data analysis and applies knowledge of engineering technology under the direction of engineering staff.
Engineer Technician III	Bachelors	6	Provides moderate technical support, conducts data analysis and applies knowledge of engineering technology under the direction of engineering staff.
Engineer Technician IV	Bachelors	10	Provides complex technical support, conducts data analysis and applies knowledge of engineering technology under the direction of engineering staff.
Executive Consultant	Bachelors	26	Responsible for providing unique functional expertise necessary to interpret requirements, ensure responsiveness and achieve successful performance. Individual will maintain a comprehensive knowledge of the statement of work areas and the ability to perform in these areas.
Financial Analyst/Estimator I	Bachelors	0	Responsible for the basic financial tracking of accounts and estimating for contract budgets. Must be able to understand the interrelationships between financial management requirements and contractual requirements. Works with management to provided detailed financial reports and estimates for projects.
Financial Analyst/Estimator II	Bachelors	4	Responsible for the simple financial tracking of accounts and estimating for contract budgets. Must be able to understand the interrelationships between financial management requirements and contractual requirements. Works with management to provided detailed financial reports and estimates for projects.
Financial Analyst/Estimator III	Bachelors	8	Responsible for the moderate financial tracking of accounts and estimating for contract budgets. Must be able to understand the interrelationships between financial management requirements and contractual requirements. Works with management to provided detailed financial reports and estimates for projects.
Financial Analyst/Estimator IV	Bachelors	12	Responsible for the financial tracking of accounts and estimating for contract budgets. Must be able to understand the interrelationships between financial management requirements and contractual requirements. Works with management to provided detailed financial reports and estimates for projects. May include supervisory requirements as required.
Graphics Spec/Tech Illus I	High School	0	Responsible for the basic development of graphic art and visual materials for informative material, proposals, promotions, and websites. Determines size and arrangement of illustrative material and copy, selects style and size of type, and arranges layout based upon available space and aesthetic design concepts.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Graphics Spec/Tech Illus II	Associates	2	Responsible for the moderate development of graphic art and visual materials for informative material, proposals, promotions, and websites. Determines size and arrangement of illustrative material and copy, selects style and size of type, and arranges layout based upon available space and aesthetic design concepts.
Graphics Spec/Tech Illus III	Associates	4	Responsible for the complex development of graphic art and visual materials for informative material, proposals, promotions, and websites. Determines size and arrangement of illustrative material and copy, selects style and size of type, and arranges layout based upon available space and aesthetic design concepts.
IT Administrator I	Bachelors	0	Administers, designs, implements, resolves problems, support and maintains basic computer hardware, software and computer systems.
IT Administrator II	Bachelors	2	Administers, designs, implements, resolves problems, support and maintains simple computer hardware, software and computer systems.
IT Administrator III	Bachelors	6	Administers, designs, implements, resolves problems, support and maintains moderate computer hardware, software and computer systems.
IT Administrator IV	Bachelors	10	Administers, designs, implements, resolves problems, support and maintains complex computer hardware, software and computer systems.
Logistics Engineer I	Bachelors	1	Apply a variety of basic analytical techniques to formulate and solve problems, plan for future technologies, conduct research and development and define requirements. Coordinates program activities designed to ensure effective and economical support for production of various goods and services.
Logistics Engineer II	Bachelors	4	Apply a variety of simple analytical techniques to formulate and solve problems, plan for future technologies, conduct research and development and define requirements. Coordinates program activities designed to ensure effective and economical support for production of various goods and services.
Logistics Engineer III	Bachelors	6	Apply a variety of moderate analytical techniques to formulate and solve problems, plan for future technologies, conduct research and development and define requirements. Coordinates program activities designed to ensure effective and economical support for production of various goods and services.
Logistics Engineer IV	Bachelors	10	Apply a variety of complex analytical techniques to formulate and solve problems, plan for future technologies, conduct research and development and define requirements. Coordinates program activities designed to ensure effective and economical support for production of various goods and services.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Logistics Specialist I	Bachelors	0	Utilize experience and knowledge to ensure logistics support requirements are designed into acquisition programs by separately or collectively working basic issues involving the logistics elements.
Logistics Specialist II	Bachelors	2	Utilize experience and knowledge to ensure logistics support requirements are designed into acquisition programs by separately or collectively working simple issues involving the logistics elements.
Logistics Specialist III	Bachelors	6	Utilize experience and knowledge to ensure logistics support requirements are designed into acquisition programs by separately or collectively working moderate issues involving the logistics elements.
Logistics Specialist IV	Bachelors	10	Utilize experience and knowledge to ensure logistics support requirements are designed into acquisition programs by separately or collectively working complex issues involving the logistics elements.
Management Analyst I	Bachelors	1	Designs and implements discipline-specific plans for complex operations, business or process models. Analyzes basic business or operations procedures to devise the most efficient methods of accomplishing tasks.
Management Analyst II	Bachelors	4	Designs and implements discipline-specific plans for complex operations, business or process models. Analyzes simple business or operations procedures to devise the most efficient methods of accomplishing tasks.
Management Analyst III	Bachelors	6	Designs and implements discipline-specific plans for complex operations, business or process models. Analyzes moderate business or operations procedures to devise the most efficient methods of accomplishing tasks.
Management Analyst IV	Bachelors	8	Designs and implements discipline-specific plans for complex operations, business or process models. Analyzes complex business or operations procedures to devise the most efficient methods of accomplishing tasks.
Management Analyst V	Bachelors	10	Designs and implements discipline-specific plans for complex operations, business or process models. Analyzes complex business or operations procedures to devise the most efficient methods of accomplishing tasks. May include supervisory requirements as needed.
Program Manager I	Bachelors	11	Responsible for basic day-to-day management of specific contract support, involving multiple projects and groups of personnel at multiple locations. Demonstrates written and oral communication skills. Establishes corporate management structure to direct effective contract support activities.
Program Manager II	Bachelors	16	Responsible for moderate day-to-day management of specific contract support, involving multiple projects and groups of personnel at multiple locations. Demonstrates written and oral communication skills. Establishes corporate management structure to direct effective contract support activities.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Program Manager III	Bachelors	21	Responsible for in-depth day-to-day management of specific contract support, involving multiple projects and groups of personnel at multiple locations. Demonstrates written and oral communication skills. Establishes corporate management structure to direct effective contract support activities.
Programmer I	Bachelors	0	Responsible for technical programming specifications identification, and development on projects. Provides basic expert programming support to the client and ensures adherence to plans and schedules. Responsible for quality control aspect of the assigned tasks.
Programmer II	Bachelors	2	Responsible for simple technical programming specifications identification, and development on projects. Provides simple expert programming support to the client and ensures adherence to plans and schedules. Responsible for quality control aspect of the assigned tasks.
Programmer III	Bachelors	5	Responsible for technical programming specifications identification, and development on projects. Provides moderate expert programming support to the client and ensures adherence to plans and schedules. Responsible for quality control aspect of the assigned tasks.
Programmer IV	Bachelors	9	Responsible for technical programming specifications identification, and development on projects. Provides complex expert programming support to the client and ensures adherence to plans and schedules. Responsible for quality control aspect of the assigned tasks.
Programmer V	Bachelors	12	Responsible for technical programming specifications, identification, and development on projects. Provides expert programming support to the client and ensures adherence to plans and schedules. Responsible for quality control aspect of the assigned tasks. May include supervisory roles as required.
Subject Matter Expert I (SME I)	Bachelors	15	Provides basic technical leadership, direction, and specialized skills for complex tasks that require unique expertise related to specific subject matter. Ensures that work within area of responsibility is complete, meets customer requirements, and is of high quality.
Subject Matter Expert II (SME II)	Bachelors	21	Provides moderate technical leadership, direction, and specialized skills for complex tasks that require unique expertise related to specific subject matter. Ensures that work within area of responsibility is complete, meets customer requirements, and is of high quality.
Subject Matter Expert III (SME III)	Bachelors	26	Provides complex, in-depth technical leadership, direction, and specialized skills for complex tasks that require unique expertise related to specific subject matter. Ensures that work within area of responsibility is complete, meets customer requirements, and is of high quality.

Labor Category	Minimum Education / Certification Level	Minimum Years of Experience	Labor Category Description
Task/Project Leader	Bachelors	6	Responsible for day-to-day management of specific contract support, involving a single project and personnel at a single or multiple locations. Demonstrates written and oral communication skills.
Technical Writer I	Bachelors	0	Responsible for basic technical writing/editing, copy design/editing, proofreading and overall documentation review. Prepares required documentation in appropriate format. Supports configuration management and quality assurance standards. Reviews and analyzes the data and user requirements to ensure that documentation is clear, concise, and valid.
Technical Writer II	Bachelors	4	Responsible for simple technical writing/editing, copy design/editing, proofreading and overall documentation review. Prepares required documentation in appropriate format. Supports configuration management and quality assurance standards. Reviews and analyzes the data and user requirements to ensure that documentation is clear, concise, and valid.
Technical Writer III	Bachelors	8	Responsible for moderate technical writing/editing, copy design/editing, proofreading and overall documentation review. Prepares required documentation in appropriate format. Supports configuration management and quality assurance standards. Reviews and analyzes the data and user requirements to ensure that documentation is clear, concise, and valid.
Technical Writer IV	Bachelors	12	Responsible for complex technical writing/editing, copy design/editing, proofreading and overall documentation review. Prepares required documentation in appropriate format. Supports configuration management and quality assurance standards. Reviews and analyzes the data and user requirements to ensure that documentation is clear, concise, and valid. May include supervisory requirements as required.
Technician I/Drafter CAD I	Associates	0	Responsible for using computer-aided design and drafting systems to prepare basic drawings electronically. Reviews engineering drawings and designs to ensure adherence to established specifications and standards
Technician II/Drafter CAD II	Associates	2	Responsible for using computer-aided design and drafting systems to prepare simple drawings electronically. Reviews engineering drawings and designs to ensure adherence to established specifications and standards
Technician III/Drafter CAD III	Associates	4	Responsible for using computer-aided design and drafting systems to prepare moderate drawings electronically. Reviews engineering drawings and designs to ensure adherence to established specifications and standards
Technician IV/Drafter Designer	Bachelors	6	Responsible for using computer-aided design and drafting systems to prepare complex drawings electronically. Reviews engineering drawings and designs to ensure adherence to established specifications and standards May direct and lead the work of others.

2. Maximum Order

The maximum order threshold is for each SIN is as follows:

541330ENG	\$1,000,000
541380	\$250,000
541420	\$1,000,000
54151S	\$500,000
541611	\$1,000,000
541614SVC	\$1,000,000
OLM	\$250,000

3. Minimum Order

The minimum order which can be accepted is \$100.

4. Geographic Coverage (delivery area)

Domestic and Overseas

5. Point(s) of Production

Contractor's address, as stated above.

6. Discount from list prices or statement of net price

Prices shown are net price (no discounts are applicable).

7. Quantity Discounts

QuantiTech is not offering any quantity discounts.

8. Prompt Payment Terms

Net 30 Days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9a. Government Purchase Cards Accepted

QuantiTech will accept Government purchase cards at or below the micro-purchase threshold.

9b. Government Purchase Cards Not Accepted

QuantiTech will not accept Government purchase cards above the micro-purchase threshold.

10. Foreign Items (List Items by Country of Origin)

Foreign items terms are not applicable to this contract.

11a. Time of Delivery (Contractor Insert # of Days)

Time of delivery terms are specified by the ordering agency with each individual task order.

11b. Expedited Delivery

Any expedited delivery terms are specified by the ordering agency with each individual task order.

11c. Overnight and 2-Day Delivery

Overnight and 2-day delivery terms are not applicable to this contract.

11d. Urgent Requirements

Urgent Requirements terms are specified by the ordering agency with each individual task order.

12. F.O.B. Points

F.O.B. terms are specified by the ordering agency with each individual task order.

13a. Ordering Address(es)

Ordering address is contractor's address as stated above.

13b. Ordering Procedures

For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment Address(es)

Payment address is contractor's address as stated above.

15. Warranty Provision

No warranty provision applies to this contract.

16. Export Packing Charges (if Applicable)

Export packing charges are not applicable to this contract.

17. Terms and Conditions of Government Purchase Card Acceptance

Contact Contractor.

18. Terms and Conditions of Rental, Maintenance and Repair (if Applicable)

Terms and conditions of rental, maintenance and repair are not applicable to this contract.

19. Terms and Conditions of Installation (if Applicable)

Terms and conditions of installation are not applicable to this contract.

20. Terms and Conditions of Repair Parts

Terms and conditions of repair parts are not applicable to this contract.

20a. Terms and Conditions for any Other Services (if Applicable)

Terms and conditions for any other services are not applicable to this contract.

21. List of Service and Distribution Points (if Applicable):

A list of service and distribution points is not applicable to this contract.

22. List of Participating Dealers (if Applicable)

QuantiTech does not have any participating dealers; a list of dealers is not applicable to this contract.

23. Preventive Maintenance (if Applicable)

Preventive maintenance terms are not applicable to this contract.

24a. Environmental Attributes

There are no special attributes applicable to this contract.

24b. Section 508 Compliance Information Regarding EIT Supplies

Compliance with Section 508 is not applicable to this contract.

25. Data Universal Number System (DUNS) Number

618564116

26. Notification regarding registration in System for Award Management (SAM) Database:

QuantiTech is registered in CCR through the System for Award Management (SAM).

Service Contract Act (SCA)

QuantiTech acknowledges the requirements of the Service Contract Act (SCA) and has verified that the prices for the non-exempt labor categories meet the SCA minimums in the contract. The SCA matrix identifies the labor categories that fall under the requirements of the SCA, and the matrix and narrative below will be incorporated into the contract and must be included in the firm’s price list.

SCA Eligible Contract Labor	SCA Equivalent Code - Title	WD Number
Administrative Support I	01020 - Administrative Assistant	15-4603
Administrative Support II	01020 - Administrative Assistant	15-4603
Administrative Support III	01020 - Administrative Assistant	15-4603
Administrative Support, Sr.	01020 - Administrative Assistant	15-4603
Graphics Spec/Tech Illus I	13041 - Illustrator I	15-4603
Graphics Spec/Tech Illus II	13042 - Illustrator II	15-4603
Graphics Spec/Tech Illus III	13043 - Illustrator III	15-4603
Programmer I	14071 - Computer Programmer I	15-4603
Programmer II	14072 - Computer Programmer II	15-4603
Programmer III	14073 - Computer Programmer III	15-4603
Programmer IV	14074 - Computer Programmer IV	15-4603
Technician I/Drafter CAD I	30061 - Drafter/CAD Operator I	15-4603
Technician I/Drafter CAD II	30062 - Drafter/CAD Operator II	15-4603
Technician I/Drafter CAD III	30063 - Drafter/CAD Operator III	15-4603
Technician I/Drafter CAD IV	30064 - Drafter/CAD Operator IV	15-4603
Technical Writer I	30461 - Technical Writer I	15-4603
Technical Writer II	30462 - Technical Writer II	15-4603
Technical Writer III	30463 - Technical Writer III	15-4603

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

Additional Information:

- QuantiTech understands that any ODCs necessitated by an order will be addressed individually and procured in accordance with acquisition regulations.
- QuantiTech understands that Construction and Architect-Engineer tasks as described in FAR Part 36 are not allowed under this contract.
- The awarded Government site and QuantiTech site labor categories and rates will be applicable for task orders in overseas locations. Additionally, a Danger Pay and/or Hardship Post differential will apply per approved differentials listed in the Department of State Standardized Regulations (DSSR) table on the date that a specific task order is written. Overseas coverage is authorized for Afghanistan and Iraq.
- In accordance with contract clause C-FSS-370, Contractor Tasks/Special Requirements, travel and per diem charges are allowable subject to limitations contained in the Federal Travel Regulations and/or Joint Travel Regulations and are reimbursable to the extent authorized by the ordering agency.
